Policy Language:

It is the policy of Baltimore City Community College to hire and retain employees in a consistent and non-discriminatory manner. Background investigations confirm the candidate's qualifications, credentials and suitability relative to the requirements of the position for which he or she is being considered. It is the College's intent to hire employees who do not pose a threat to others and nor have a negative impact on the assets or operations of the institution. BCCC is committed to taking actions to protect its finances, property, and other assets. To that end, Baltimore City Community College shall require pre-employment background check which may entail checking any or all parts of the candidates employment references and employment histories, employment credit check, fingerprinting, review of Department of Motor Vehicle records and credential verifications. The nature and scope of the background check will be determined by BCCC and will be appropriate to the position.

Background checks will be required of current BCCC staff members if they have not undergone the additional background checks required by a new position. A current employee who has already undergone a background check in the two (2) years preceding his/her application for transfer or promotion, will not be required to undergo a new background check unless he/she is applying for a position with substantially different responsibilities and the position requires additional background checks, such as a license or credit check. A background check will not be required for changes in shift or other interdepartmental lateral transfers.

Employees have an ongoing responsibility, during their employment, to make BCCC aware of any felony or misdemeanor convictions or pleas which are acknowledgements of responsibility. Any convictions or pleas should be reported to the Office of Human Resources.

Pending charges and reported criminal offense convictions will not necessarily disqualify an applicant/employee from employment with the College. Before a final decision is reached, Human Resources and college counsel will evaluate the time frame, nature, gravity, and relevancy of the conviction or charge offense as it relates to the job duties and consistency with Baltimore City Community College policy.
